

Guitar Program

The guitar program is teacher guided for group tuition where students will learn to develop classical technique for solo and ensemble performance. This booklet is not intended to be used in isolation but as an addition to teacher instruction. The guitar program is designed for students to work in a group situation; however, students may work at their own pace following the sequentially planned exercises. It is expected that students follow and practice all exercises thoroughly before moving on further in the program. The program includes both teacher/student duets and solo exercises that may be downloaded individually as media files to be used as accompaniment for practice and also listening.
